

275N Life Jacket

Supplied with a 60g CO2 inflation cylinder, the Northern Diver Arctic Survivor 275N Life Jacket is a high performance device for offshore use and severe environmental conditions, when maximum protection is required or where heavy waterproof clothing is being worn.

The 275N Life Jacket helps prevent drowning of those who cannot help themselves, for example if they are unconscious.

This item cannot be guaranteed to self right in all instances an unconscious user wearing heavy waterproofs or clothing. During tests it has been proved to self right in the vast majority of cases.

The 275N Life Jacket has been designed in consultation with rescue training organisations responsible for training the emergency services. It can be customised with logos.
