Il Castoro C96-PRO CE è un autorespiratore a ossigeno a circuito chiuso di tipo ciclico progettato e costruito per uso amatoriale e semiprofessionale. I molteplici test effettuati nel corso degli anni conferiscono all'apparato caratteristiche di primo livello per quanto riguarda affidabilità, resistenza, semplicità d'impiego e di manutenzione dell'autorespiratore. Il Castoro C96-PRO rappresenta uno degli apparati a ossigeno a circuito chiuso più compatti e leggeri presenti sul mercato.

Secondo la tradizione OMG l'autorespiratore è corredato di una protezione morbida realizzata in Cordura 1500, per migliorare il coefficiente di idrodinamicità e proteggere da tagli ed abrasioni il sacco polmone in gomma poliuretana, il filtro in calce sodata e le connessioni dei tubi corrugati.

Castoro C96-PRO CE is a fully closed circuit oxygen rebreather designed by O.M.G. firm in La Spezia, Italy for recreational and semi-professional use. Tests made over the years confirm that the breathing unit guarantees a high level of reliability, strength, simplicity, operational safety and easy maintenance, characteristics which make it ideal for this kind of apparatus. Castoro C96-PRO CE is one of the most compact and lightest weight fully closed circuit oxygen rebreather on the market.

It has an innovative softshield constructed with heavy duty ultradurable Cordura 1500 in order to contain the breathing bag equipped with the hose connector and hoses, protecting the breathing bag against tearing and abrasion caused by rocks and sharp object improving its hydrodynamic cut.

CASTORO C96 PRO È CERTIFICATO CE  
CASTORO C96 PRO IS CE CERTIFIED

**TECHNICAL CHARACTERISTICS**

MODEL > CASTORO C96 PRO CE  
PRODUCED BY > OMG ITALY

TYPE > VENTRAL WITH SOFT SHIELD  
WORKING PRINCIPLE > CLOSED CIRCUIT  
OXYGEN INJECTION > MANUAL  
GAS > OXYGEN

BREATHING BAG > ABOUT 8,5 LT, ATOXIC POLYURETANE  
FILTER > RADIAL, SODA LIME, 2,05 KG (4.52 LBS)  
CYLINDER > 1,5 LITRES, 232 BAR, ALUMINIUM (WHITE OR BLACK)

DIVE DURATION AT 20° C > 240 MINUTES  
DIVE DURATION AT 4° C > 130 MINUTES  
STORAGE TEMPERATURE > -30° C + 70° C  
OPERATING TEMPERATURE > -2° C + 35° C

MAX DEPTH > 6 MT (EN14143:2003)  
WEIGHT IN AIR > 8,5 KG (18,74 LBS), READY TO USE  
WEIGHT IN WATER > NEUTRAL (WITH 2,5 LT OF OXYGEN)

ORDER CODE > ASOV-MM-041 (B/W)  
INCLUDING REBREATHER, BOUCLE BELT, WAIST BELT,  
TECHNICAL MANUAL, STORAGE SEMI-RIGID SOFT BAG

ORDER CODE > ASOV-MM-042 (B/W)  
INCLUDING REBREATHER, BOUCLE BELT, WAIST BELT,  
TECHNICAL MANUAL, TRANSPORT HARD CONTAINER.

ACCESSORIES  
KIT053 > MAINTENANCE KIT  
CMR-E-01 > STORAGE AND TRANSPORT CONTAINER
